Summary

Full-stack web developer with a relentless work ethic. Ability to think and make decisions quickly, and communicate effectively. Works well in small or large groups. Passionate about learning new languages/technologies and becoming a senior developer.

Experience

Lexington Law — Credit Consultant

May 2016 - Current

- Build online cases for new clients, setup their online portal, and help solve their credit issues.
- Reported bugs and UI issues on our internal applications.
- Provided top tier customer service to new and existing clients.

Clearlink Communications Inc — Customer Associate

May 2015 - May 2016

- Kept up to date with the latest technologies that Centurylink internet was using so I could best serve new and current clients.
- Tech support with customers when their internet wasn't working.
- Exceeded sales numbers and KPI's weekly.

X-Nation — Assistant Associate

March 2013 - May 2015

- Helped manage the website, and online orders through amazon, eBay, and our website.
- Helped train new employees and educate them on product.
- I would open and close the store, handle tills, and bank deposits.
